LAZ PARKING PreScreen Tier 1

Arrive with
peace of mind.

As we begin to emerge from the COVID-19 pandemic, screening of potential risks is critical in safely moving the world forward. And LAZ Parking is ready to do our part, with an innovative new service that prescreens visitors as they arrive, before they enter a workplace or venue. Utilizing Vizsafe's Geoaware® StaySafe solutions, LAZ Parking PreScreen offers powerful frontline protection and peace of mind from health threats to you, your business and your customers or employees.

[THE PRESCREEN PROCESS*]

Before visitors arrive at their destination, they will need to download a free app for user authentication and complete a short questionnaire. Once they arrive, they will park their vehicles and be instructed to visit a touchless screening kiosk. A PreScreen Squad member will greet the visitor and can assist as they scan the QR from the app and use the scanner that monitors real-time health symptoms. If they pass the health check at this checkpoint, they will be cleared to proceed to their destination.

*All descriptions and depictions provided herein are for marketing purposes only, as the actual services provided and procedures followed by LAZ Parking will be agreed to by LAZ Parking and the client on an individualized basis. LAZ expressly disclaims liability resulting from any failure to follow marketing materials.

[AN ADVANCED SCREENING SYSTEM]

RAPID ONSITE FIRST LEVEL SCREENING

The first step in the PreScreen process allows our PreScreen Squad to quickly evaluate visitors' risk level and assign them one of two status options:

Fail: Visitor has a temperature higher than an agreed maximum

Proceed: Visitor's temperature is within an acceptable range and they can proceed to next screening step

PHONE APP OR WEB-BASED TOOL

This allows the LAZ PreScreen Squad to look up visitors' current pass status, print or issue passes, or enter basic ID information for new visitors.

PRINTED OR ELECTRONIC PASS

Customers who pass all screening steps are issued an electronic QR code that is good for a specified period of time. This allows them entry into the facility.

COMPLIANCE

We will work with our Clients to ensure that LAZ PreScreen process meets business needs, CDC and other government safety recommendations in light of COVID-19, and applicable law.

LAZ is proud to partner with Vizsafe and USHealthyWork

Vizsafe's patented Geoaware® Network delivers a "dashboard" of proven services for incident reporting, mapping and visual communications, enabling smarter and more responsive communities globally. The technology has been awarded SAFETY Act Designation as a Qualified Anti-Terrorism Technology by the U.S. Department of Homeland of Security, supporting mission critical safety, security, facility and risk management applications. Vizsafe products and services are proudly made in the USA. To learn more, visit: www.vizsafe.com

USHealthyWork is a leading medical consultancy group that provides expert advice and evidence-based guidance to help businesses, schools, and organizations safely return from the COVID-19 pandemic. USHealthyWork was consulted and has approved the LAZ PreScreen screening protocols and health questionnaire. Learn more about USHealthyWork at ushealthywork.com.

Keeping Businesses Safe

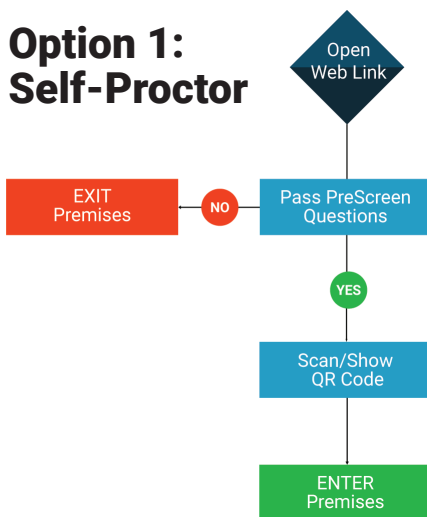

LAZ PARKING PreScreen Tier 2

Arrive with
peace of mind.

As we begin to emerge from the COVID-19 pandemic, screening of potential risks is critical in safely moving the world forward. And LAZ Parking is ready to do our part, with an innovative new service that prescreens visitors as they arrive — before they enter a workplace or venue. LAZ Parking PreScreen offers powerful frontline protection and peace of mind from health threats to you, your business and your customers or employees.

[THE PRESCREEN PROCESS*]

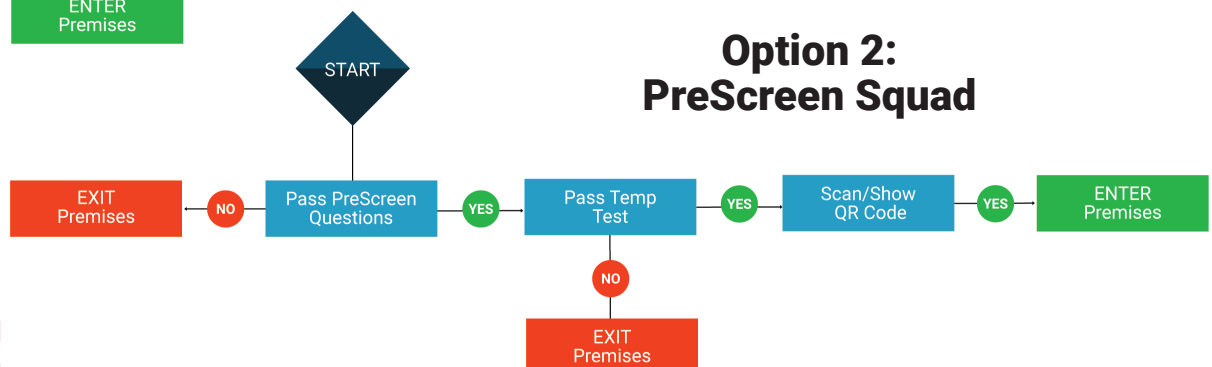

Option 1: Self-Proctor

In option 1, your visitors are in the driver's seat! After opening the designated web link, they are prompted to answer a series of questions that can be customized based on the needs of your business. You can even choose to have visitors enter their own temperatures into the questionnaire. After completion they are issued a QR code that they can show proving they passed, it's that simple!

With option 2, our PreScreen Squad greets visitors as they arrive at the location, and after following a series of simple screening questions that ensure both thoroughness and efficiency, visitors are either cleared to continue, or asked to exit. This option also allows our PreScreen Squad to administer a temperature screening if desired.

Option 2: PreScreen Squad

*All descriptions and depictions provided herein are for marketing purposes only, as the actual services provided and procedures followed by LAZ Parking will be agreed to by LAZ Parking and the client on an individualized basis. LAZ expressly disclaims liability resulting from any failure to follow marketing materials.

[AN ADVANCED SCREENING SYSTEM]

RAPID ONSITE FIRST LEVEL SCREENING

The first step in the PreScreen process allows our PreScreen Squad to quickly evaluate visitors' risk level and assign them one of two status options:

Fail: Visitor has failed to pass screening questions and/or has a temperature higher than an agreed maximum

Proceed: Visitor has passed screening questions and temperature is within an acceptable range and they can proceed into the facility

PHONE, TABLET OR WEB-BASED TOOL

This allows the LAZ PreScreen Squad to look up visitors' current pass status, print or issue passes, or enter basic ID information for new visitors.

PRINTED OR ELECTRONIC PASS

Visitors who pass all screening steps are issued an electronic QR code that is good for a specified period of time to be set at your discretion. This allows them entry into the facility.

COMPLIANCE

We will work our Clients to ensure that LAZ PreScreen process meets business needs, CDC and other government safety recommendations in light of COVID-19, and applicable law.

Contactless Thermometers

provide a quick way to immediately gauge health upon arrival.

Question & Answers

from your visitors can be addressed by our PreScreen Squad. They are fully trained in all aspects of the PreScreen process.

LAZ PARKING PreScreen Tier 3

Arrive with
peace of mind.

As we begin to emerge from the COVID-19 pandemic, screening of potential risks is critical in safely moving the world forward. And LAZ Parking is ready to do our part.

[PRESCREEN SQUAD SERVICES]

Our LAZ PreScreen Squad offers powerful frontline protection and peace of mind from health threats to you, your business and your customers or employees.

Health Screening: Our PreScreen Squad can help with pre-screening and temperature checks at key points of ingress, either within parking facilities or at the entrance of public buildings.

Crowd Control: Our trained special event staff can provide critical public safety support, by encouraging social distancing and enforcing local crowd restrictions at beaches, parks and recreational facilities.

Compliance: We will work our Clients to ensure that LAZ PreScreen process meets business needs, CDC and other government safety recommendations in light of COVID-19, and applicable law.
