

The LAZ Difference is

Charles

**Charles - Assistant Manager
Chicago, IL**

Charles is going places. After college in Connecticut, he wanted to expand his horizons, join a great company and apply the skills he learned. So he accepted a job offer with LAZ Parking's Chicago region.

He started on the front lines, right where our executives and founders started. With a love for fixing things, like motorcycles and a '57 Chevy Pickup, keeping our commercial portfolio operations up and running was second nature to Charles.

After only a few months he was promoted, managing two key properties for LAZ. He now leads a team of amazing employees, but still gets to work with advanced technology like our customer care center, online reservations and the latest web-connected hardware.

With thousands of locations across the US, the opportunities at LAZ are endless. Charles is loving his move and is even starting to speak with a bit of a Chicago "ayek-cent"! We're excited to see what's next for him.

The LAZ Difference is Charles.
